Review of Ship Recycling Facility Compliance

To:

Ayan Ship Breakers
Plot Number 17 & 18, Gaddani Ship Breaking Yard,
Balochistan, Pakistan

On the request of our client, Ayan Ship Breakers, surveyors from Bureau Veritas Solutions Marine and Offshore SAS have conducted a comprehensive review of the *Ship Recycling Facility Plan (SRFP)*, Doc Ref: ASB-SRFP-01, Issue no 01, Issue date 01-01-2025, Revision 03, Rev. Date 09-06-2026 (BVS Reference Number: ENV2025/067/SRFP-AYA/R3) prepared by Ayan Ship Breakers, and witnessed the operational procedures in Ayan Ship Breakers' facility located in Plot Number 17 & 18, Gaddani Ship Breaking Yard, Baluchistan, Pakistan.

The implementation and verification were carried out during desktop reviews and site visits as documented in the attached Final Report (Stage 2 of 2), ENV2025/067/TR-AYA/REV 1, dated 12th June 2026.

We are pleased to confirm that, if the reported findings and recommendations are followed and rectified, your facility will be aligned with the following international requirements:

- Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships, 2009 – specifically the relevant requirements outlined in Regulations 8–23 of the Annex.
- International Maritime Organization's MEPC.210(63) Guidelines for Safe and Environmentally Sound Recycling of Ships, 2012.

We trust this assessment will assist you in maintaining compliance with international maritime environmental standards.
